

## What is eeds?

eeds™ is an online CE tracking system for healthcare professionals.

You can use eeds to get CE transcripts, attendance certificates, record self-reported CE credits, and even earn credits with Point-of-Care Learning. Just use the sign-in code provided to you at an educational activity to sign-in and receive attendance. Evaluations, transcripts, and attendance certificates will be available to you online.

## FAQ

**Q:** *I have an eeds account, does that mean I have a subscription?*

**A:** No, it is possible to have an eeds account but not have a subscription. To see your subscription status, login to your account at [www.eeds.com](http://www.eeds.com).

**Q:** *What can I do with eeds without buying a subscription?*

**A:** There are several things you can do with your eeds account even if you don't have a subscription:

- You can use eeds to track your self-reported activities such as out-of-town conference and self-learning such as journal clubs, mentoring, and colleague consultations.
- You can access one single-activity certificate per day at no charge.

# How can *eeds*<sup>TM</sup> help me?

## TRANSCRIPTS AND CERTIFICATES

CE attendance information is available online 24/7. You no longer have to keep up with paper certificates and wonder how many credits you have for the year.

## SELF-REPORTED CREDIT

Use *eeds* to document events that are not sponsor reported such as Journal Clubs and teaching. You can also use *eeds* to record events that you have attended that do not use the *eeds* system. Any transcripts generated will include all events you attended including self-reported activities.

## CLAIM MOC POINTS

Track Maintenance-of-Certification requirements and claim MOC points for activities you attended offering this type of credit.

## MOBILE-FRIENDLY

Use the free *eeds* iOS App or Android app to instantly access to your CME records or just log on to the mobile website at [www.eeds.com](http://www.eeds.com). You may also use your mobile phone to sign-in to educational activities to receive attendance credit.

## ONLINE ACTIVITY CALENDAR

*eeds* helps healthcare professionals stay up-to-date with an online calendar. The calendar is searchable by multiple criteria, allowing members to quickly find a conference that will meet their needs.

## TRACK CME REQUIREMENTS/GOALS

*eeds* can help you stay on top of your CME requirements. You can create CME goals for individual states or medical societies. As you earn credits, *eeds* will apply them to the relevant goals and keep you aware of your progress.

## HOW MUCH DOES IT COST?

There is no cost to create an *eeds* account or to use *eeds* to sign-in to educational activities. When attending an event where a sign-in code is offered, simply use the code to receive attendance at no charge.

You may download one single event certificate per day for free. However, if you prefer the convenience of not having to download individual certificates, a nominal cost subscription may be purchased to allow you to receive transcripts of all your attendance.

Many organizations work with *eeds* to cover subscription fees for their physicians. However, if your organization does not, you may purchase a subscription for yourself.

For individuals, we offer three levels of *eeds* subscriptions:

ONE-WEEK SUBSCRIPTION:  
**\$19.99**

ONE-YEAR SUBSCRIPTION:  
**\$39.99**

TWO-YEAR SUBSCRIPTION:  
**\$74.99**
